**Automation Alley Members Team Up to Extend Their Reach into Canada
WELCOME EVERY SECTOR OF CANADIAN INDUSTRY**

Automation Alley member, Hirata Corporation of America has developed a strategic alliance with the Canadian Corporation, R&M Real Solutions Inc.

Canadian Corporations looking for an advantage in trying economic times received a unique opportunity this year. REAL The Performance Network was established in Canada to provide all aspects of Canadian Industry with an extraordinary Mega Supplier that fuses best in class suppliers from Canada, the US and the world, onto a single team to maximize offering while minimizing cost.

Never has so much capability been offered within Canada on one team. REAL is headquartered in Waterloo Ontario, designated the world's smartest city and sits dead centre in the midst of over 1000 Aerospace, Automotive, Electronic, General Manufacturing, and Pharmaceutical manufacturing of every type that dot Southern Ontario as well as being in direct proximity to the Michigan, New York and Ohio sectors.

REAL is a massive network brought together with Canadian, US and International suppliers working in a single network side by side, the capacity of REAL is highlighted below;

- THE best supplier by type, industry, application
- Core member companies of REAL operate in 15 countries and produce approx 70,000 parts per hour globally within and outside Canada.

REAL integrates the Best Supplier of its type, Direct to the customer, in parallel to offer the maximum cost saving and reduce customer purchasing groups in having to sort through a myriad of suppliers to create their own team on a project by project basis.

REAL Focus and Mission: To support and hold in the highest regard, Canadian Assembly and Industrial facilities that produce world class products from Canadian hands. To support these producers with a team of suppliers from within Canada and from around the world, who will remain as a team, vigil towards these Producers ability to control their bottom lines while delivering the highest quality.
